facilities, pollution and environmental issues, and the storage and processing of agricultural products. Work Environment. Agricultural engineers work mostly in offices, but may spend time traveling to agricultural settings.

Agricultural Engineers : Occupational Outlook Handbook

Read Free Agricultural Process Engineering

Agricultural Engineering is the area of engineering concerned with the design, construction and improvement of farming equipment and machinery. Agricultural engineers integrate technology with farming. For example, they design new and improved farming equipment that may work more efficiently, or perform new tasks.
