A cell contains =IF(ISNUMBER(SEARCH("Avox Production",B60)),"1","") The statement enters a "1" in the cell

Download Ebook Select Plays Containing 1 Wild Oats By Mr Okeefe 2 Lionel And Clarissa By Mr Bickerstaff 3 Love In A Village By The Same 4 The

when the word "Avox Production" is typed in another cell B60. I have a range of cells with the statement listed above. What I need to do is gather the sum of all cells with "1" and populate the total of these cells into another worksheet.

Excel: If cell contains then count, sum, highlight, copy ...

The Select-String cmdlet searches for text and text patterns in input strings and files. You can use Select-String similar to grep in UNIX or findstr.exe in Windows. Select-String is based on lines of text. By default, Select-String finds the first match in each line and, for each match, it displays the file name, line number, and all text in the line containing the match.
