### **2001 MXZ 600 Engine Torque Specs | Snowmobile World**

We knew it was a strong runner in our on-snow testing last spring, but we didn't know how strong it really was. We found 119.8hp at 7800 rpm, with the torque peak of 80.6 pounds right on top of it. "This is an impressive engine package," noted Dynoport's Rich Daly. "The 600 HO very makes good power for its size.
